Office Action Summary	Application No. 10/663,227	Applicant(s) MIDTGAARD, JACOB	
	Examiner Henry K. Choe	Art Unit 2817	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

Claims 1-15, 18-29, 32-40 and 43-49 are still rejected under 35 U.S.C. 102(b) as being anticipated by Harney et al (Fig. 1) (of record) for reasons of record.

Allowable Subject Matter

Claims 16, 17, 30, 31, 41, 42, 50 and 51 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

Applicant's arguments filed 3/10/05 have been fully considered but they are not persuasive.

Applicant argues that claim 1 recites an envelope elimination and restoration linear amplifier. Harney does not disclose an envelope elimination and restoration amplifier. However, applicant's argument only focus on the preamble of the claim. No patentable weight is given to the preamble of the claim because a preamble is generally not accorded any patentable weight where it merely recites the purpose of a process or the intended use of a structure, and where the body of the claim does not depend on the preamble for completeness but, instead, the process steps or structural limitations are able to stand alone. Furthermore, according to MPEP 2111, during patent examination, the pending claims must be given the broadest reasonable interpretation consistent with the specification. You read the claims in light of the specification. But you do not incorporate the limitations in the specification into the claims. We only give patentable weight to the limitations positively recited in the claims. We absolutely don't give patentable weight to the limitations recited in the specification but not positively recited in the claim. If applicant wants patentable weights given to the term such as "envelope elimination and restoration linear amplifier", then such term must be clearly defined in the claim.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
